GUIDELINES FOR WHITE COUNTY WINERIES TOUR BUSES

1. Make a reservation 2 weeks advance
2. Drivers should inform and enforce the guidelines as outlined;
3. Wine Cellar tours are not a part of the visit, unless agreed upon between the individual winery and tour operator prior to the visit. An additional cost will be incurred which will be determined by each winery;
4. Published schedule from tour operator should be followed with a maximum 30-45 minute variation;
5. Under no circumstances should 2 buses be at any winery at the same time;
6. Tour buses should not arrive less than 45 minutes before closing time. It takes time to learn about our wines and enjoy a tasting and the experience;
7. Neither drivers nor guests are allowed behind tasting bar;
8. Inappropriate items are to be left on bus (like blow up dolls, sexual items, etc.) they are not allowed in tasting rooms. No inappropriate language or gestures will be tolerated in tasting rooms;
9. Tour operators should monitor the alcohol intake between wineries to help avoid heavy intoxication during the day. This will help avoid foul language, sickness, etc.;
10. A tasting room bar area is for sampling the wines. Many wineries offer seated tasting or a table at which you may enjoy a glass of wine, but first—taste the wines and decide what you would like to order by the glass, then move on to the designated areas. All members must be present to begin tasting. Once you begin your tasting, please stay at the bar or designated area until you finish. Then make way for others to taste at the bar. Please stay at the designated bar or area until tasting is complete so your server can keep track of what you've tasted...the order in which you taste makes a difference;
11. Each winery should arrange designated parking area for buses or guests;
12. Please ask drivers to refrain from expressing bias pertaining to owners/staff, properties or wines on the tour;
13. Please ask drivers to refrain from instructions regarding what or when to make a purchase or from discouraging purchases for any reason.
14. Purchases of glasses/bottles of wine by the Tour Operators as a "perk" for the customer is the responsibility of said Tour Company and should be paid prior to purchase;
15. Wineries reserve the right to refuse service to anyone based on level of intoxication, behavior or any of the guidelines set forth in these guidelines;
16. Wineries reserve the right not to schedule tour based on bus drivers due to their behavior or by not following any of the guidelines;
17. Discuss with each winery how many buses they can handle per day before scheduling more than 2 buses per day;
18. At arrival to each winery, drivers should inform wineries of the number of guests on the bus and return to bus. Ten minutes prior to time for departure, drivers should notify the guests that the bus would be leaving in 10 minutes so they can prepare to leave;
19. Drivers should insure that guests do not take any wine glasses (or any winery items) to the bus that have not been paid for;
20. No personal solicitations are allowed on winery properties;
21. Per Georgia law...No alcohol from bus can be brought out of bus onto winery property;
22. We want everyone to have fun, so please treat your visit like you would if you were invited into someone's house or home. Treat each winery property and staff with respect.
